Bio-Technology Showcase

15th & 16th October
Biofuels Conference

Join the following speakers as they inform you of the latest developments in the Biofuel and Bioenergy markets. If you are planning to make bioenergy or adopt a biofuel for your organisation then these conference streams will help you make informed choices. Planning, Financing and implementation strategies will all be discussed.

Michael Chesshire
REA

Alistair Dickie
HGCA

Sandra Hayes
NEF

Jenny Harrison
Deloitte

Rob Trezona
Carbon Trust

Mike Webb
Econergy

Brian Morris
Npower Cogen

Tom Pears
Alternative Energy
Finance

Rainer Romirer
Windhager

Robert Egli
Buhler

James Scruby
Matrix Biofuels

Will Thurmond
Emerging Markets

"The show was an unprecedented success and as a result we have now extended our production from a 5 day week to a 7 day week!"

Chris Elvey, MD Ecotec
www.etruc.com

"We were extremely happy with the way everything turned out at the 2007 event and are very excited about new opportunities that would not have been possible without this conference and Expo. Eco-Energy is looking forward to next year already."

Franklin, TN, USA
www.Eco-EnergyInc.com

"This show has rapidly established itself as the premier European biofuels event and as such Intertek were proud to sponsor such a high profile occasion."

The overpowering impression from an intense two days was of the extremely high profile of the attendees. All the major producers were present as well as key personnel from significant industry players.

Intertek will be back next year with an even higher profile, such is the importance we attach to this event."

Intertek
