

Protest against one of the UK's largest biofuel companies

Please join a banner protest outside the office of Greenergy

198 High Holburn, WC1V 7BD
Wednesday, 30th January, 12.30 - 2.30 pm

**Greenergy use palm oil, soya, rapeseed oil and Brazilian
sugar cane in biofuel.**

***Agrofuels (crops grown for fuels)
are linked to***

- Accelerated global warming due to more deforestation and more intensive agriculture
- High biodiversity losses
- Higher food prices and loss of food sovereignty
- More water stress and soil erosion.

- **Biofuel refugees: Indigenous peoples, forest communities, small farmers and pastoralists are losing their land to agrofuel monocultures**
