

No Biomass Subsidies! Peaceful Demonstration

When? 19 April 2012

Where? Outside the Scottish Parliament

Time? 12.30pm - 2.00 pm

**Why? To call on the government to
stop subsidising biomass**

Bring yourself, a placard, and a friend!

THE SMALL PRINT:

- Biomass electricity generation is so inefficient that 3 out of every 4 trees burned are wasted as heat
- New Plans for biomass in Scotland would see 4 million tonnes of wood burned every year, with most wood coming from forests overseas
- Subsidies for inefficient, unsustainable biomass could cost Scottish fuel users £300 million every year

Demonstration supported by:

biofuelwatch
