

How to submit the form

This document will take you through the 11 steps needed to completed the form, all parts are compulsory and need to be filled in. thank you in advance for your support.

1. Follow this link: <https://national-infrastructure-consenting.planninginspectorate.gov.uk/register-have-your-say/EN010120> you may be taken to a page that looks like the below, if you are click on the **'Register Online'** blue button.

The screenshot displays the National Infrastructure Planning website interface. At the top, there is a navigation bar with links for 'Cymraeg', 'FAQs', 'Contact', and 'Sitemap', along with the contact number 'Enquiries: 0303 444 5000' and a search box. Below this is a main navigation menu with 'Home', 'Projects', 'Application process', 'Legislation and advice', and 'Help'. The main content area features a progress bar for 'Generating Stations: Drax Bioenergy with Carbon Capture and Storage Project' by Drax Power Limited, with stages 'Acceptance', 'Pre-examination', and 'Examination'. A prominent blue box contains an information icon and the text: 'You can now register as an Interested Party' with a 'Register online' button. Below this, it provides contact information for those unable to register online and a link to a step-by-step guide. At the bottom, there is a secondary navigation menu with 'Overview', 's51 advice', 'Documents', and 'Registration form'.

2. The above page should redirect you to a page which looks like the below, alternatively you may click the link in point one and be taken to this page in the first instance. **Read the instructions and then click the green 'Start Now' Button**

Register to have your say about a national infrastructure project

BETA This is a beta service – your [feedback](#) will help us to improve it.

Register to have your say about a national infrastructure project

You are registering to have your say about the **Drax Bioenergy with Carbon Capture and Storage Project**

Use this service to have your say about a national infrastructure project. We need your personal details and your comments about the Drax Bioenergy with Carbon Capture and Storage Project.

Writing your comments

You must include comments with your registration. Your comments must be about what you consider to be the main issues and impacts. You can also include anything that may affect your day-to-day life.

This information will be:

- used by the Examining Authority to decide if they recommend the project goes ahead
- published on our website

You will be able to submit further comments during the Examination of the application once you have registered.

You must submit your registration before 23:59 on Monday 05 September 2022.

Start now >

Before you start

If you are registering yourself as an individual

You will need your:

- full name
- address
- email address and telephone number
- registration comments about the project

If you are registering for an organisation you work or volunteer for

You will need:

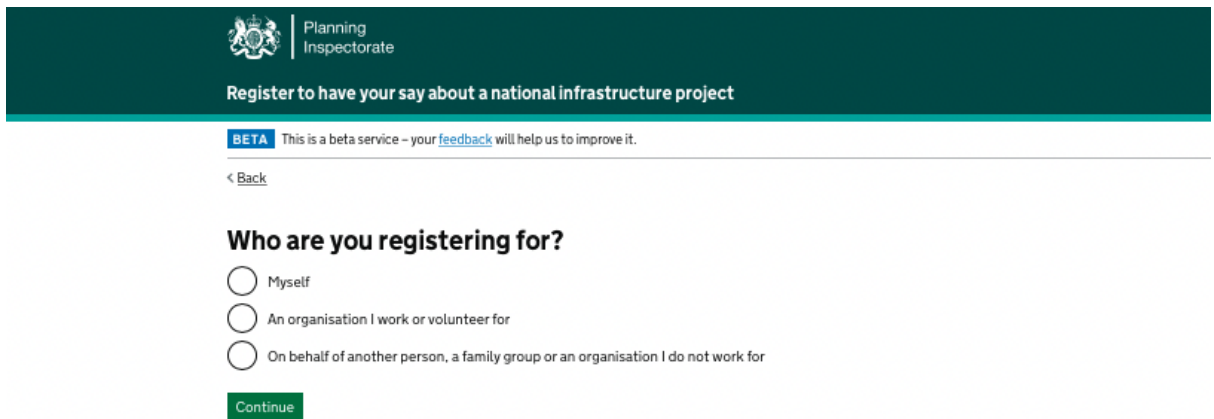

- your full name
- the name of the charity or organisation you work for
- your work address
- email address and telephone number
- registration comments about the project

If you are registering on behalf of another person or organisation

You will need:

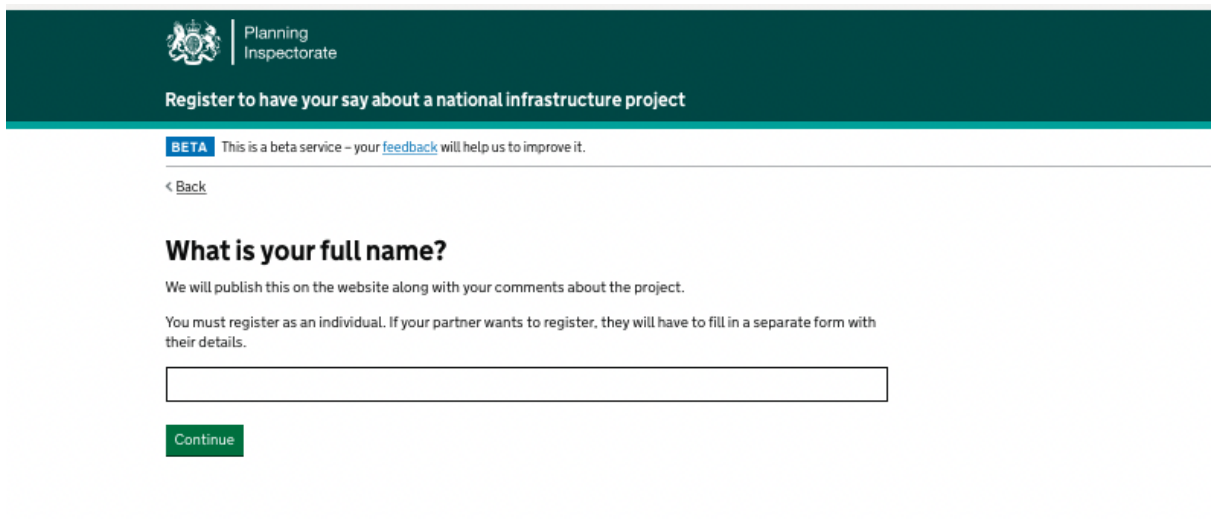

- your full name
- your address
- your email address and telephone number
- the details of the person, family group or organisation you are representing
- their registration comments about the project

3. This is the next page you will see, **Click the appropriate option, and then click the green 'Continue' button**

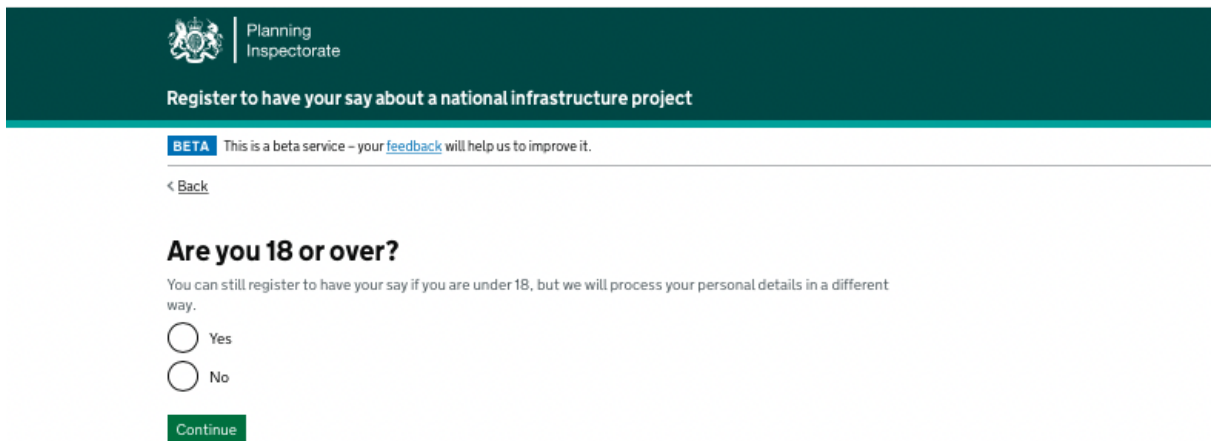

The screenshot shows the Planning Inspectorate website header with the logo and the text "Planning Inspectorate". Below the header is a dark green banner with the text "Register to have your say about a national infrastructure project". Underneath the banner is a blue box with the text "BETA This is a beta service - your feedback will help us to improve it." and a link to "feedback". Below this is a "< Back" link. The main heading is "Who are you registering for?". There are three radio button options: "Myself", "An organisation I work or volunteer for", and "On behalf of another person, a family group or an organisation I do not work for". At the bottom is a green "Continue" button.

4. This is the next page you will be directed to: **enter your full name and then click the green 'Continue' button**

The screenshot shows the Planning Inspectorate website header with the logo and the text "Planning Inspectorate". Below the header is a dark green banner with the text "Register to have your say about a national infrastructure project". Underneath the banner is a blue box with the text "BETA This is a beta service - your feedback will help us to improve it." and a link to "feedback". Below this is a "< Back" link. The main heading is "What is your full name?". Below the heading is a paragraph: "We will publish this on the website along with your comments about the project." followed by another paragraph: "You must register as an individual. If your partner wants to register, they will have to fill in a separate form with their details." Below the text is a white text input field. At the bottom is a green "Continue" button.

5. This is the next page you will see: click the appropriate option then click the green 'Continue' button

Dear Sir / Madam,

I wish to object to Drax's application to add carbon capture technology to two of its wood-burning units.

I am objecting because I believe the proposal is not a sustainable development as defined in the National Planning Policy Framework (<https://tinyurl.com/2p9hacyv>), since it is not compatible with increasing productivity, supporting communities' health, protecting our natural environment or improving biodiversity.

According to Drax's planning document, carbon capture will reduce the net efficiency of the biomass boilers to just 28.49% because 28% of the energy generated by each unit will be needed to capture and compress CO2. The real figure could potentially be even higher. By decreasing electricity generation, there is a high chance that this will cause more fossil gas to be burned in other power stations. This is contrary to the Overarching National Policy Statement for Energy's (<https://tinyurl.com/53an2awt>) commitment to reduce energy from fossil fuels.

I am also very concerned about the potential harm to human health from the amine chemicals which Drax is planning to use to separate the CO2 from the other flue gases. These amines can form other compounds when they are emitted, including nitrosamines and nitramines which are possible carcinogens (<https://tinyurl.com/5bvhrcps>). Yorkshire and Humberside already have high levels of air pollution (<https://tinyurl.com/2cs9hd7e>), and there is a lack of research into the impacts of these chemicals on public health.

Moreover, Drax's Ecology Report (<https://tinyurl.com/44v95z7>) for the project states that this development will lead to the degradation and destruction of a number of internationally, nationally and locally important habitats where ecological groups found rare and

The government classes energy from burning trees as 'low-carbon' and argues that it can help 'tackle climate change'. I strongly disagree with this, as do hundreds of scientists (<https://tinyurl.com/yckvupex>) and environmental NGOs around the world (<https://tinyurl.com/yuwca4f>) who highlight that burning wood is as bad for the climate as fossil fuels and that Drax's claims that BECCS can achieve "negative emissions" are based on the false assumption that logging, transporting and burning trees in power stations can be "carbon neutral." (<https://tinyurl.com/msw85362>)

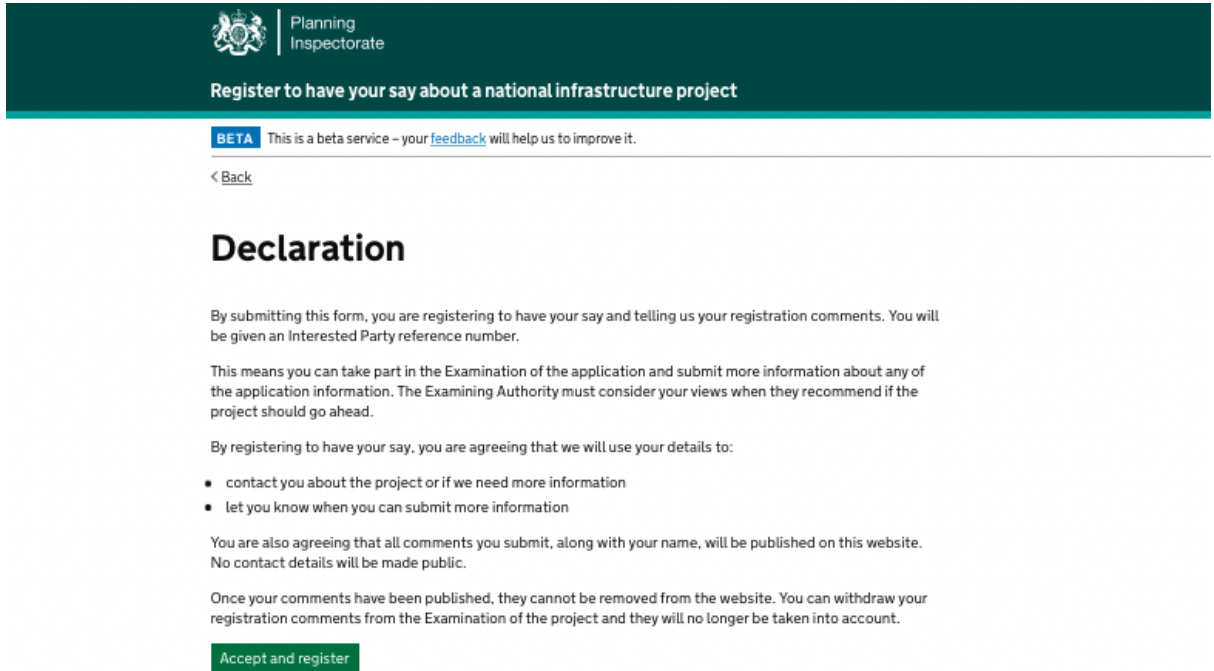

I urge you to take note of these concerns and refuse permission for Drax's BECCS application.

Yours sincerely,

10. You will be taken to a final page to review your submission if you are happy with the information click the green 'Accept and Continue' button at the bottom. If you would like to change any information you can do this by clicking 'Change' next to the section, you want to edit.

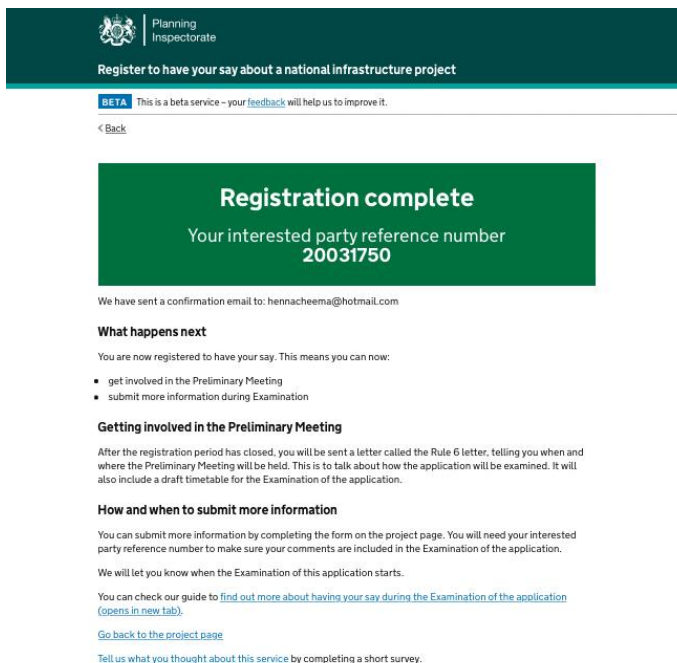

Accept and continue

11. You will be directed to a declaration page, please read this, and click the green 'Accept and register' button

The screenshot shows the 'Declaration' page of the Planning Inspectorate. At the top, there is a dark teal header with the Planning Inspectorate logo and the text 'Register to have your say about a national infrastructure project'. Below the header, a blue box contains the text 'BETA This is a beta service – your [feedback](#) will help us to improve it.' A '< Back' link is visible. The main heading is 'Declaration'. The text explains that by submitting the form, the user is registering to have their say and will be given an Interested Party reference number. It states that this means the user can take part in the Examination of the application and submit more information. The Examining Authority must consider the user's views. The user is also agreeing that their details will be used to contact them about the project or to let them know when to submit more information. All comments submitted will be published on the website, and contact details will be made public. Once comments are published, they cannot be removed, and the user can withdraw their registration comments. At the bottom, there is a green button labeled 'Accept and register'.

12. the last page you should see will be confirmation of your registration, you should also receive this as an email. You can now close the browser as your objection has been submitted.

The screenshot shows the 'Registration complete' page of the Planning Inspectorate. At the top, there is a dark teal header with the Planning Inspectorate logo and the text 'Register to have your say about a national infrastructure project'. Below the header, a blue box contains the text 'BETA This is a beta service – your [feedback](#) will help us to improve it.' A '< Back' link is visible. The main heading is 'Registration complete'. Below the heading, it says 'Your interested party reference number 20031750'. Below this, it says 'We have sent a confirmation email to: hennacheema@hotmail.com'. The section 'What happens next' states that the user is now registered to have their say and lists two bullet points: 'get involved in the Preliminary Meeting' and 'submit more information during Examination'. The section 'Getting involved in the Preliminary Meeting' explains that after the registration period has closed, the user will be sent a letter called the Rule 6 letter, telling them when and where the Preliminary Meeting will be held. The section 'How and when to submit more information' states that the user can submit more information by completing the form on the project page and that they will be let know when the Examination of this application starts. At the bottom, there are two links: 'Go back to the project page' and 'Tell us what you thought about this service by completing a short survey.'
